Juris Versions and Changes

Juris 2.35

Released July 15, 2009

Functional Area	Description	Tracking Number
Tables		
Chart of Accounts	Enhanced Chart of Account look up form	
Expense Codes	Enhancement- Can now mark inactive	
Vendors	Enhancement- Can now mark inactive	
	Corrected the issue where timekeepers could be marked inactive if they were either a Billing Timekeeper or Originating Timekeeper	
Timekeepers	Enhancement- can now leave the first name and middle initial blank	980
Timekeepers	Enhancement- Allow responsible timekeeper allocations to use decimals	
Clients	Correct the issue where new matter numbers were not being assigned properly if the option of 'First Available' was used.	1017
Clients	Enhancement- Pops up a warning box if a matter fee schedule does not match a client fee schedule	

Transactions

Credit Memos	If invalid bill # is typed in, a message stating such now pops up.	986
Checks	Corrected the issue of checks not printing properly with option of one check, multiple stubs selected	994
Journal Entry	Corrected issue when entering large journal entries. It would not always input the correct account #- happened when using the binoculars to look up account #s and tabbing thru all fields	1047

Billing

WIP Transfer	Enhancement- Can transfer WIP from existing prebill to another client/matter that has an open prebill. Do not have to re-select the prebill.	
Edit Prebill	Corrected the error received when cut/paste the narrative from Word	996

Inquiry/Reports		
Reports	GL Reports- no longer receive invalid use of null error	1006
Reports	Working Timekeeper Analysis by Working Timekeeper report- Corrected the overlapping of subtotals	935
